THE PROJECT

NAME of the Project : Permanent activity

THEMATIC : RENOVATION AND SOCIAL WORK

DATES : 08/10-07/11/2018

Project : Working with the organisation staff (*administrative and technical mentors*), the volunteers will participate in technical works (*reroofing, insulation, plumbing, electricity works, toilets installation, room creation...*) to improve people's home. The inhabitants are people who are facing social and economic difficult and challenging situations and the main challenge is to involve them in the improvement of their living conditions by doing the works all together.

Although the main purpose is the carrying out of the technical work, the activity has therefore an important social and human aspect that makes the intervention different from a professional one. Furthermore, most of the time the volunteers share the lunch (or at least a coffee) with the family which provides a valuable time to get to know each other and may create strong links based on trust and sharing.

Works : depending on the habitants' projects.
