CHALLENGE

ECO CHALLENGE

- LEARNING EXPERIENCE IN FRANCE -

RENNES & DINAN

15th - 22th July 2019

PROJECT

The origin of this project called “ECO – CHALLENGE: YOUTH ENTREPRENEURSHIP AND ENVIRONMENTAL AND INTERCULTURAL LEARNING FOR SUSTAINABILITY” can be found in a previous diagnosis carried out by Aurn Association, where a need of fostering youth entrepreneurship has been detected, from a perspective of sustainability linked to the environment and the interculturality.

Facing the current deterioration of the environment, the challenge is that not only individuals but also institutions act in a sustainable way. We need to urgently acquire an ecological knowledge and behaviour that allow us to develop our life styles without growing more than our limits. Being conscious of that, we consider as essential, to promote the environmental and intercultural education for a sustainable development. In turn, we have detected and confirmed that, as official statistics have shown, it exists an evident exodus of young people towards the city, producing a real rural abandonment with a worrying depopulation. That is why this project is aimed to give a response to this troublesome issue and give a strong value to the potentialities of the rural areas, as opportunities for the youth that want to undertake projects. Additionally, we have detected a lack of training for the promotion of entrepreneurship and the creativity among youth workers, being that fact one of the topics that we want to deal with in this project.

In this Project there participate 4 organizations with a wide experience in local and European level work coming from France, Romania, Italy and Spain.

LEARNING EXPERIENCE

This learning experience will take place in Brittany (France) during 6 days and the topic will be “WAYS TOWARD THE SUSTAINABILITY”.

During this learning activity we will know different local entrepreneurs like good practices at local level and strategies to promote the creativity, innovation, sustainability. This learning activity will be an opportunity to discover and discuss about the 17 SUSTAINABLE DEVELOPMENT GOALS and the way to promote and work with youth people about this topic in our local youth work.

This learning activity will be useful to take know the "VIDE GRENIERS". The participants will have the opportunity to live close different "vide greniers experiences" like a good practice in sustainability.

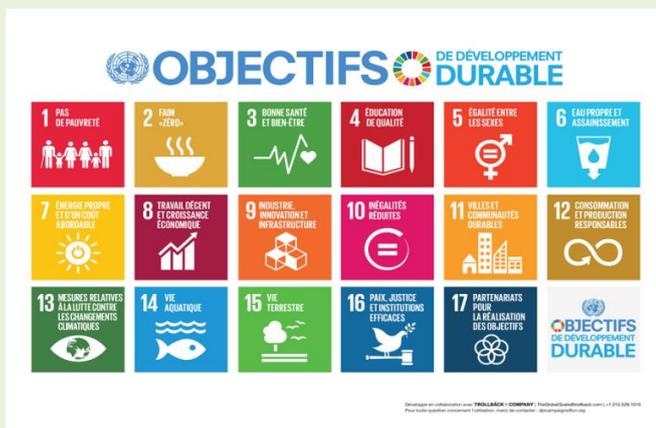

Also this activity will be an opportunity to do an intercultural exchange between the countries participants and break cultural topics and stereotypes. During this learning activity will be develop a specific activity to disseminate the Erasmus Plus Program between the local community. This activity will be an Event to promote the sustainability with some local social and sustainability entrepreneurs and will be an opportunity to organize an intercultural exchange between the participants from different countries and the local community.

Also, it is necessary to point out that we will use an active and participative methodology inside the framework of non-formal education in which these formative actions are involved, which will make this work easier. The informal learning and the open learning spaces during the activity will be useful for the participants.

The objectives of the "Learning experience - ECO CHALLENGE" are:

- To introduce the 17 SUSTAINABLE DEVELOPMENT GOALS in our youth work.
- To make an exchange of good practices in entrepreneurship experiences.
- To find strategies to promote between youth people the "Sustainability live style"
- To participate in a great Festival in the city of Rennes.
- To make know the "VIDE GRENIERS EXPERIENCES"
- To foster the intercultural learning.
- To make an activity to disseminate the Erasmus Plus Programme and the European Solidarity Corps in the local community.

WHEN AND WHERE

From 15th to 22th July 2019 (15th and 22th travel days)

The “Learning Experience” activity will take place in two places, Rennes and Dinan (France)

The place where we will sleep in Rennes:

<http://www.mfr-rennes-stgregoire.fr/page-143-locations.html>

The place where we will sleep in Dinan:

<http://www.steredenn.org>

INFORMATION FOR PARTICIPANTS

What to bring:

Personal things: Rain closed, towel and your personal hygiene items, swimsuit, music instrument, paper and pen!

For the activity:

1/ Somethings to eat or drink from your country. (we have also a kitchen to cook:)

2/ Somethings special to sell or give connected with social and sustainable economy.

FINANCIAL AND TRAVEL COST

During the training course, all cost related to food & accommodation and activities will be covered 100% by the hosting organization. The transportation costs for the travelling from your organization's location to Brittany (by the cheapest means) will be reimbursed during the training course but, very important, you have a maximum price. If you beat the maximum price you must pay this part of the money.

These are the maximum price that we can reimburse per person:

- **Spain: € 275**
- **Italy: € 275**
- **Romania: € 360**

VERY IMPORTANT: for the reimbursement, we need all the original travel's tickets, plane (boarding pass), train, bus, no taxi. If you buy the tickets online on the internet, we need too the email where is written the price of the ticket. We will not pay the reimbursement if we don't have your original travel tickets, because the National Agency only reimburse the money if we have the original tickets.
