

## SEARCHING FOR PARTNERS

### EVS IN BAUMANNLAB, A CREATIVE SPACE FOR DESIGNING

Place: Terrassa - Dates: From 15 October to 15 July

Hello! It's already 10 years that we're hosting volunteers in our association, and this year, of course, we'll repeat with the same energy as always.

#### LA VÍBRIA INTERCULTURAL, WHO WE ARE

La Víbria Intercultural it's a small association placed in Terrassa (40 min from Barcelona) that works the interculturality and the peace culture by doing activities of non-formal education. In our daily work, we deal with youngsters in different ways: in one hand, we have some hours in the week dedicated exclusively to give information to youngsters from 13 to 30 years old, related to going abroad (to study, to make internships, for volunteering, to work...). On the other hand, we are partners with the European network of Erasmus+, and so, we are hosting, coordinating and sending organization for EVS, Youth exchanges and Training Courses.

#### BAUMANNLAB, WHAT IS IT?

BaumannLab is the laboratory of young creation of the City hole of Terrassa, focused on the production and support of artistic creation (multidisciplinary), with the visual arts and the contemporary thought as a principal point of interest.

Its main objectives are:

- Encourage the development of the critical attitude of young people through artistic practices.
- Promote the visibility of the universe and its youthful worldview citizens of Terrassa.
- Provide training and professionalization of young artists about contemporary art practices.
- To promote artistic research and development and production of artistic work processes.
- Encourage the production of collective creativity through the establishment of a network of relationships between institutions, organizations, groups and other stakeholders with common goals to BaumannLab and through transversal work between programs Service Child Youth and Recreation.

Are distinctive features of the methodology of this creative laboratory strengthening synergies between various activities such as research, production, training and dissemination, as well as public and heterogeneity of users that we go and we want to relate from the projects and services BaumannLab.
